# GradLeaders Recruiting Database Inclusion

Enhance and extend your employer outreach efforts with a direct connection to the GradLeaders Recruiting platform.

## WHY?

- + GradLeaders Recruiting is used by the world's leading employers to proactively find right-fit students for their unique opportunities
- + Trusted recruiters within our closed network gain access to your students' profile data and approved resumes
- + Give your students more opportunities to be found and hired by relevant employers

## HOW? It's as easy as 1-2-3!

- 1 Contact your Customer Relationship Manager to make sure the GradLeaders Recruiting Database Inclusion feature is turned on for your students.
- 2 Discuss with your team any additional student waiver language you would like added and submit a tech request.
- 3 Encourage career service registration to all students actively or passively seeking internships or full-time opportunities. Communicate with students about the benefits of inclusion in the GradLeaders Recruiting database and encourage them to opt-in to increase their visibility to top employers.

*"We attribute our success with top-tier companies like Amazon to GradLeaders' platform; it has raised our profile with companies via the student-recruiter interactions facilitated online."*

- **Tom Kozicki**, Executive Director, UC Irvine
